Arthroscope obturator.

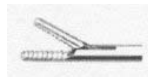

1.9mm 103mm arthroscope obturator ref: 1930105

2.4mm 110mm arthroscope obturator ref: 2430112

Ø 2mm pistol grip fine scissor

Ref: 1930106

Ø 2mm universal grasping forcep

Ref: 1930107

Ø 2mm basket punch with double bar

Ref: 1930108

Ø 2mm hook probe

graduated

Ref: 1930109

Ø 2mm curette

15° angled

Ref: 1930110

The Advantage Small Animal Arthroscopy endoscopes are high quality German manufactured traditional rod lens style telescopes for use in specialist orthopaedic applications. The rod lens style endoscope can be repaired, unlike the newer fibre optic style scopes which cannot. All items listed are German manufactured and constitute a standard arthroscopic package. However if you want an instrument not shown please contact us and we will be able to supply it.
