

## Advantage 5mm Laproscope telescope

**5mm 0° Laproscope telescope.**  
Ref: 3200005

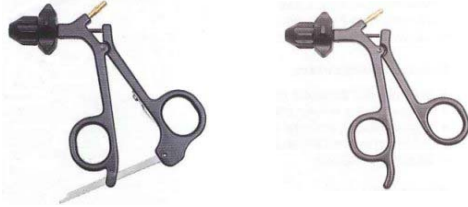

**5mm 30° Laproscope telescope.**  
Ref: 3203005

**5mm sheath and trocar.**  
Ref: 51LAP

**Verris Needle.**  
Ref: 52LAP

**Standard handle ref: 48200185**  
**Ratchet Handle ref: 48200187**  
**Rotatable outer sheath 5mm 35cm ref: 48200002SA**

**All instrumentation is German Manufactured to the highest standard. Images show our standard package however we can supply any pattern instrument.**

**Metzbaum serrated scissor ref: 48238800**

**Claw grasping forcep ref: 48271300**

**Biopsy punch with spike ref: 48208000**

**Babcock grasping forcep ref: 48225100**

**Injection cannula 45cm ref: 52705435**

**Knot pusher/tier ref: 52730300**

**15ltr min electronic insufflator ADIN15**

**15ltr min electronic insufflator with gas heat filter ADIN15H**

**The Advantage 5mm Laproscope Telescope is a high quality traditional rod lens style telescope.** Coupled with one of our Advantage camera systems the image can be projected onto screen and recorded for archive/presentation purposes.
